Serving at the Crossroads

In Honor of: _____

Given by: _____

SATC provides medicine and supplies, and coordinates medical brigades from the U.S. to serve at the clinic. Working with a local clinic, Manos Amigas, SATC opened a 10,000 square foot state-of-the-art clinic in July 2010 on a main highway outside La Entrada. Since 2006, the clinic has treated more than 80,000 patients. With mentoring from SATC, the clinic staff and Manos Amigas directors have taken ownership of the clinic, manage day-to-day operations, and plan for the future.
